

# Bledsoe's Rental on Wornall

Fall is the best time to renovate your lawn. We have the right equipment to get the results you want, healthier, thicker grass. Apply starter fertilizer and good quality grass seed, use a power rake or seeder to bury the seeds and prepare your soil bed, then water regularly until your new plants start to grow. The cool damp fall nights provide a perfect combination of cool and moist air to get your new plants off to a great start!

We rent core aerators to help get moisture and nutrients down to the roots, dethatchers to help get water and nutrients to the soil bed, and seeders that sure beat raking!

Bring in this advertisement for 10% off the rental of any of the following items.

Lawn Aerator (motorized)  
Lawn DeThatcher  
Lawn Seeder

## 10% Off

Don't forget to get your propane tanks filled, or purchase a spare tank so that you have enough propane on hand for your backyard barbeques.
